SMD601 Loss Prevention System

PREVENTS THE LOSS OF VALUABLE METAL ITEMS

- High Sensivity
- Detection of both Magnetic and Non-Magnetic Metals
- Optical, Acoustical and Vibration Alarm
- Long Battery Life
- Very High Reliability
- Easy to Use
- Self-Calibrating
- Fast Induction Battery Charger (optional for PD140VR model)

SPECIAL
ERGONOMIC
SHAPE

smiths detection

bringing tecnology to life

The Hi - SCAN 6040i is a newly designed, compact X-ray inspection system with a tunnel opening of 620 mm (24") wide by 418 mm (16.5") high. This tunnel size is ideally suited to cabin baggage and other small items in areas with increasing security demands.

The Hi-SCAN 6040i is part of the new ProLine system concept, which offer various layout possibilities, thank to its modular, flexibel design. Online image analysis methods to support the operator's work, and a new man-machine interface configured according to ergonomic requirements, are pointing the way to the future for this kind of system. Innovative technology and a high degree of reliability, make this system an exeellent tool for covering sensitive fields of inspection.

The equipment offers the operating peronnel optimum surpport in making decisions and reduces inspection times considerably.
